myRentokil versions

myRentokil Full: This version gives users full access to all of myRentokil's functionality, including detailed reporting and trend analysis and is aimed at customers that require a higher level of reporting.

myRentokil Lite: This version is aimed at users that need a standard level of pest reporting and allows users to view outstanding recommendations and pest activity data. It also enables customers to manage their pest control records and stay compliant with legislation.

Both versions of the system are available to view on the myRentokil smartphone app, which allows users to view and analyse their pest control records on the go.
